OBJECTIVES AND TARGETS OF ORIGINAL PLAN

There were no reduction options identified in any of the plans of the above noted substances that were identified as being both technically and economically feasible.

No additional actions were taken during the year to reduce the use and/or creation of any of the reportable substances.

No other amendments were made to the original plans.

TOXIC REDUCTION PROGRESS

The 2015 reporting year saw changes (increase/decrease) for some substances due to new source testing data and revised metals analysis in raw materials. Production increases resulted in increases of some substance releases.
